Register

3) Login Page

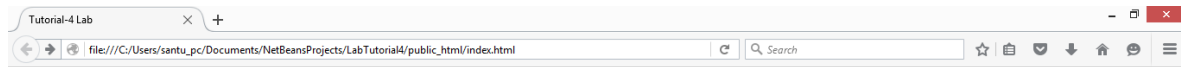

A mockup of a login window. The window has a title bar with three colored buttons (red, yellow, green) and the text "Login". Inside the window, there are two input fields. The first is labeled "UserName:" and the second is labeled "Password:". Below the input fields is a blue button with the text "Login".

4) Maps Page

A mockup of a maps page. At the top, there are two search boxes, each with a magnifying glass icon and a "Search" button. To the right of the search boxes are two blue buttons: "Get Directions" and "Get Weather". Below the search boxes and buttons is a large white area representing a map. In the center of the map area, there are two location pins.

Index Page: This is the first page up on execution of the project. This has two buttons namely “Login” and “Register”. Up on clicking those, we will be redirected to Login and Register pages respectively.

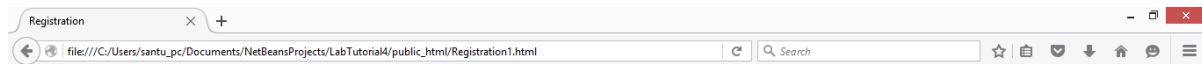

Direction Services with Weather

Login

Register

Registration Page: This page enables the user to enter the details and register. Up on registering the user details will be save in local storage. User needs to be registered in order to login.

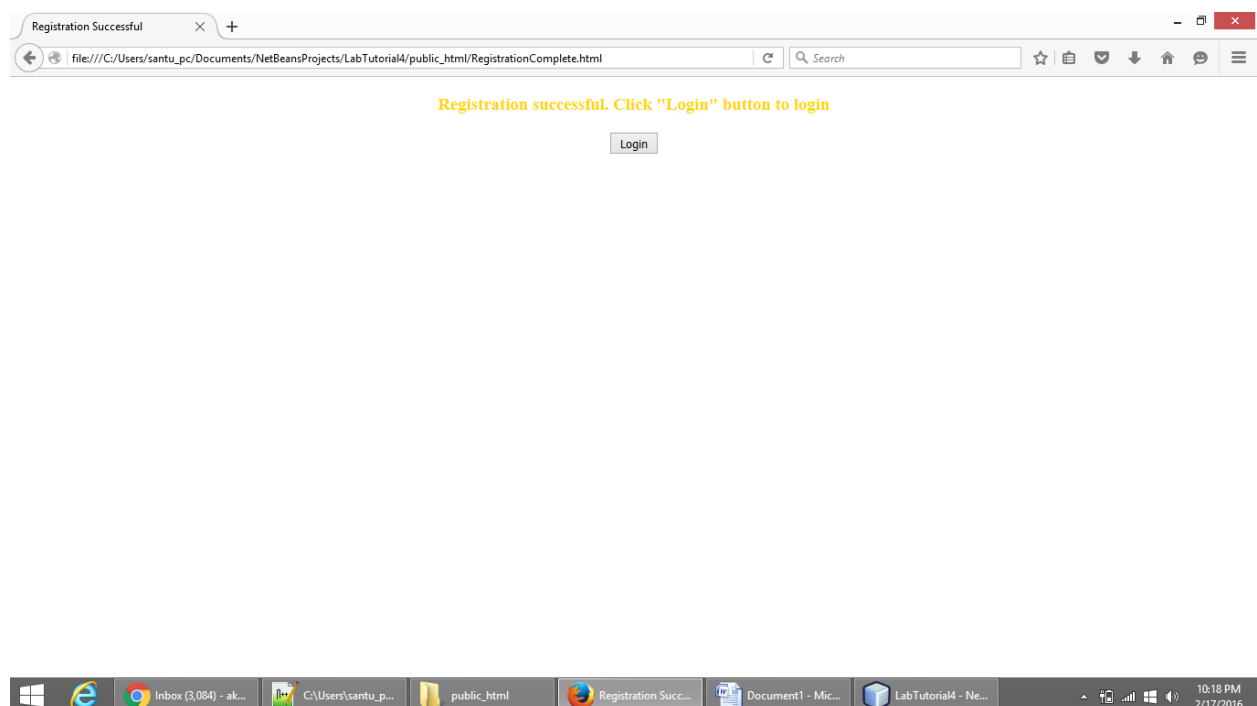

| Registration Form | |
|---|--------------------------|
| FirstName: | <input type="text"/> |
| LastName: | <input type="text"/> |
| EmailId: | <input type="text"/> |
| UserName: | <input type="text"/> |
| Password: | <input type="password"/> |
| Phone: | <input type="text"/> |
| <input type="button" value="Register"/> | |

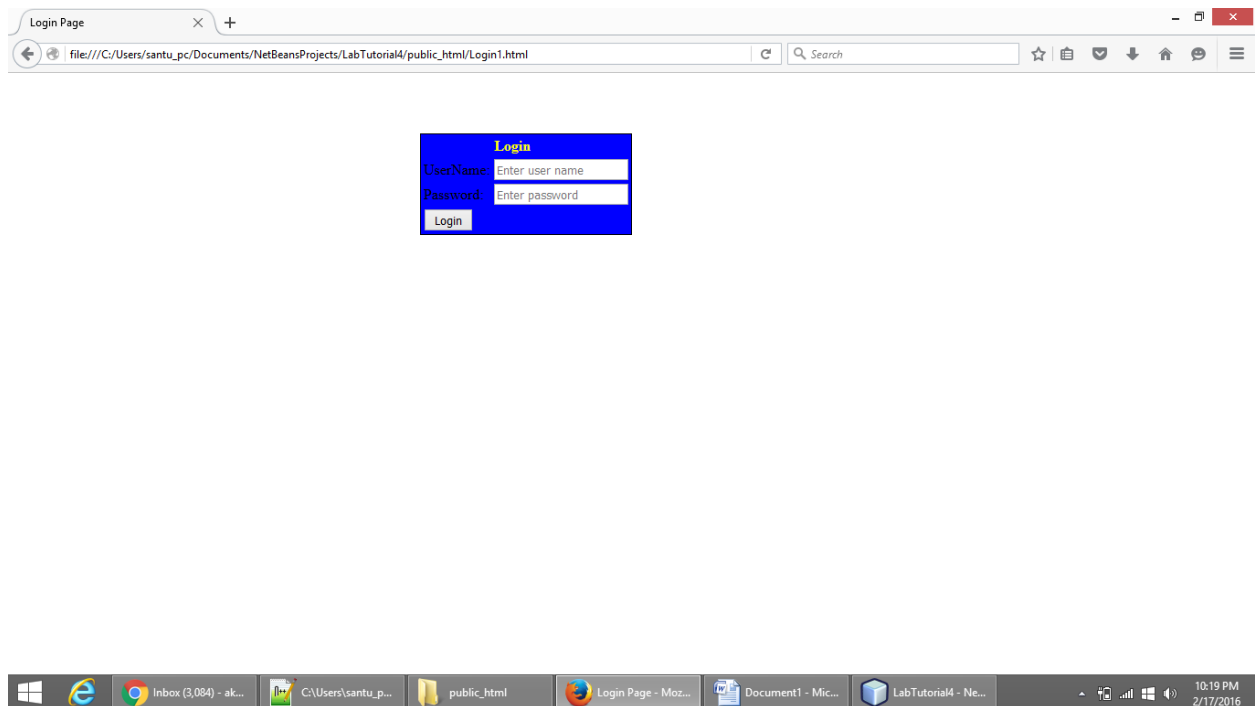

Page display after entering the details.

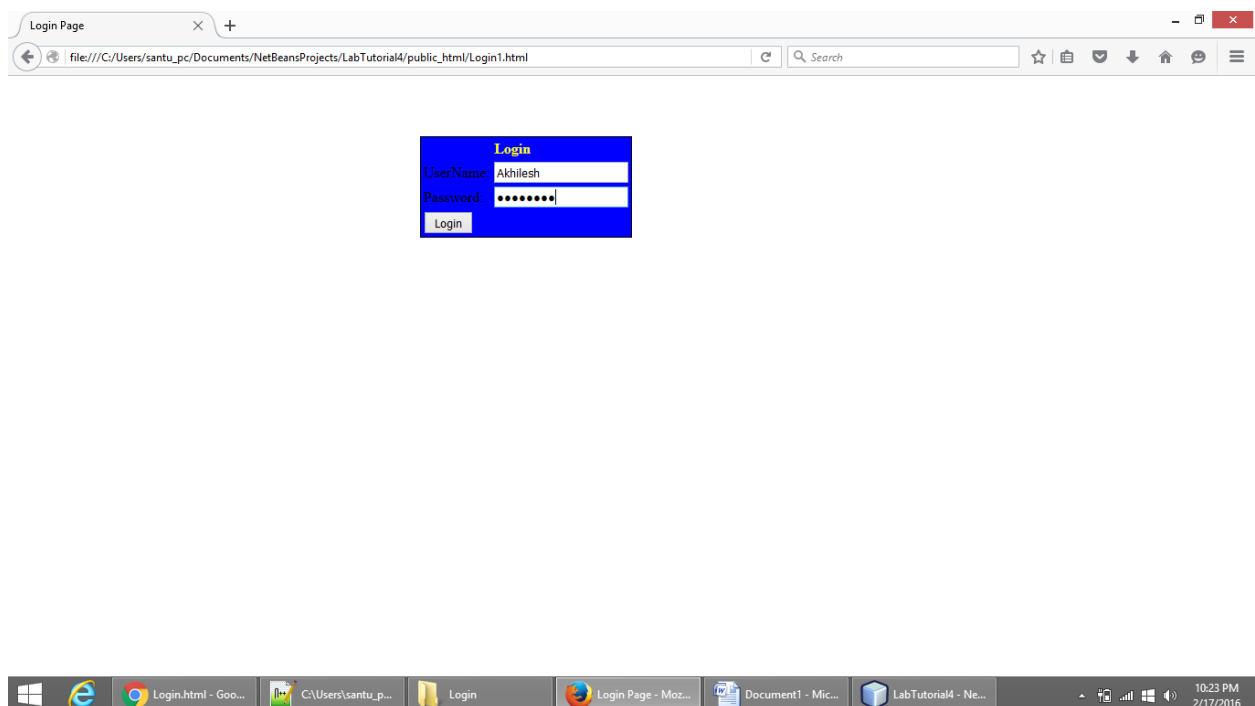

Registration Completion Page: Once the user enters the details and clicks on Register button, he/she will be redirected to this page. Up on clicking the Login button the user will be redirected to the Login page.

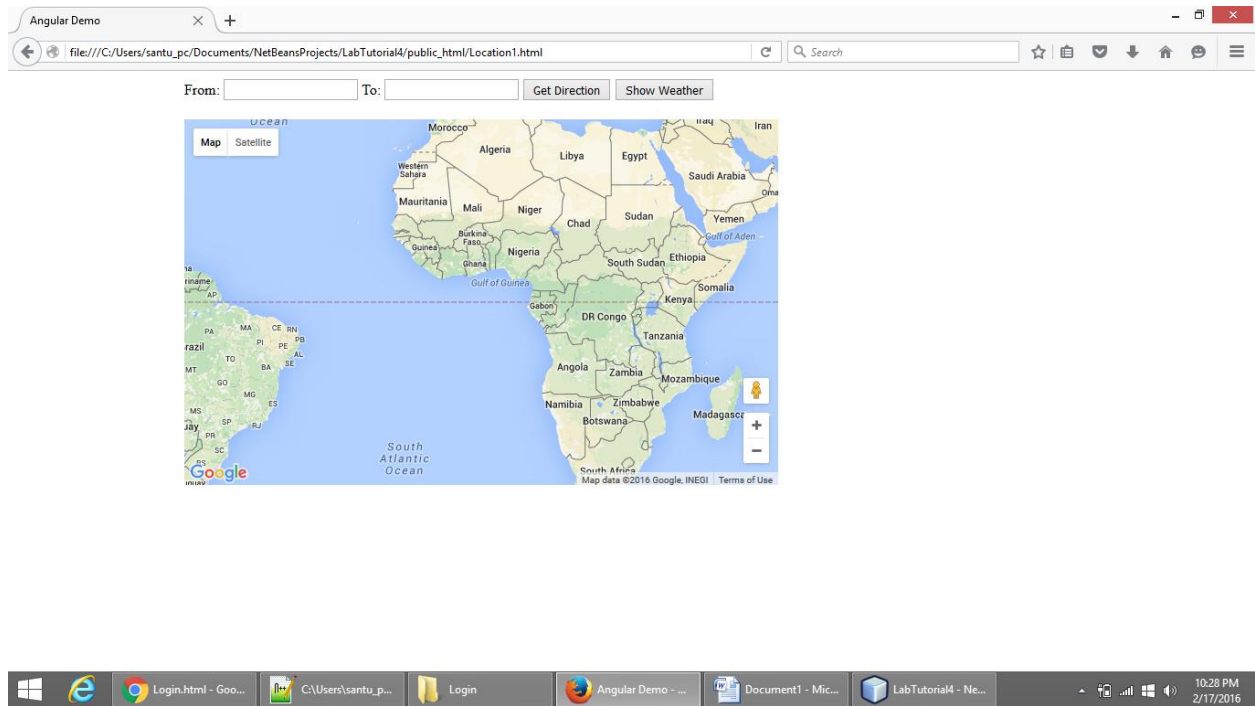

Login Page: Here the user is prompted to enter the user name and password. After entering correct details the user will be prompted to maps page. If the details are not correct then the user cannot go ahead and view directions and weather.

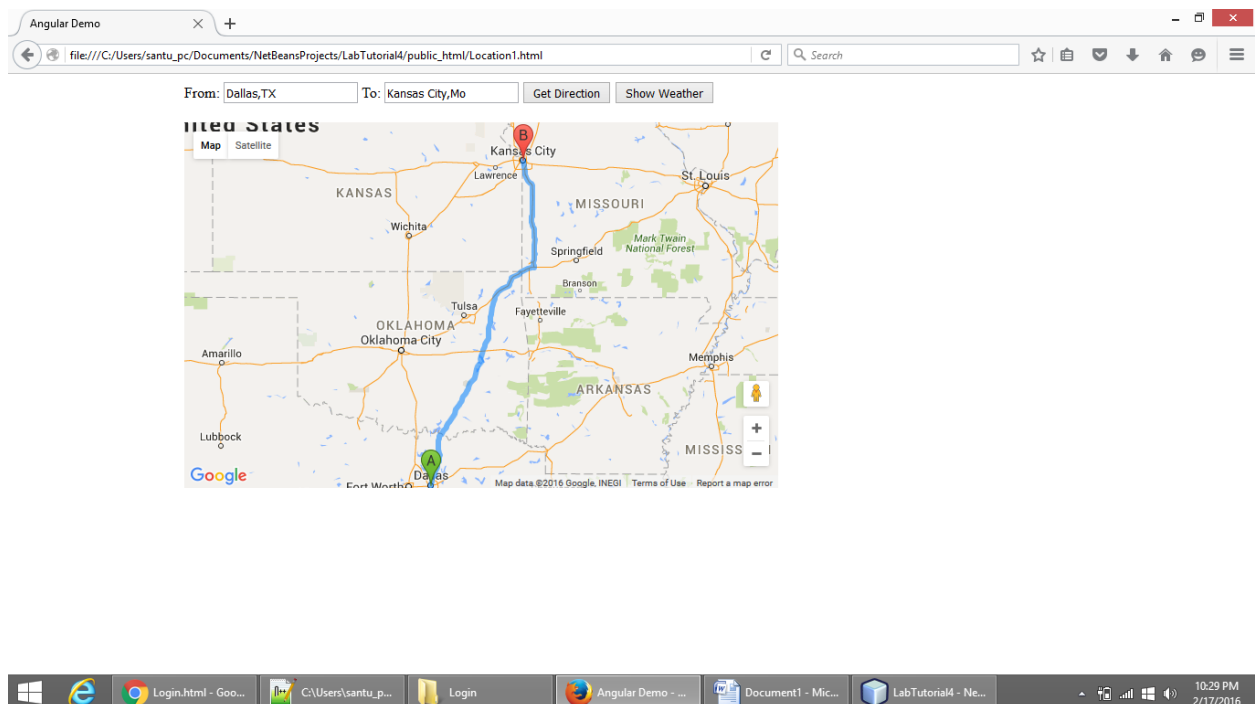

Login page after entering correct details

Maps Page: Here user can enter Source and Destination address to view the direction and weather of the areas he is interested in.

Directions between the Source and Destination cities after entering the details and clicking Get Directions button

After clicking the Show Weather button the source and destination weathers are displayed.
